

BEST OFFICE PROJECT

BOBRICK HEADQUARTERS

Location: 6935 Tujunga Ave, North Hollywood
Size: 111,772 sf
Developer: Bobrick
Contractor: Millie and Severson
Architect: Gensler

SILVER
AWARD

Bobrick Headquarters continues to shine as it is awarded the Best Office Project from the Los Angeles Business Journal Commercial Real Estate Awards. HSA & Associates, Inc. is the Structural Engineer of Record for Bobrick Headquarters Project.

The architectural design of the new Bobrick Headquarters facility is intended to communicate the stability of Bobrick's standing as a long term Los Angeles company while capturing the hope and aspiration that is the foundation of this forward-looking company. Constructed of concrete panels with a mixture of sand to relate to the desert landscape of the San Fernando Valley, the body of this building is firmly rooted to its site.
